

# STEMPILOT® CLASSROOM™

## 3-5 Science

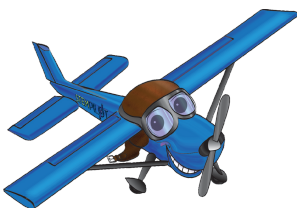

Our all new **3-5 Science Curriculum** helps students understand basic science, physics, math, and much more!

Designed for Google Classroom, our **easy-to-follow** lesson plan is aligned with NGSS. Each lesson starts with a video for visual learning first.

The **free** flight simulator runs on any tablet or smartphone.

### How it works:

- ✪ Purchase a subscription for the 3-5 STEM: Aviation (\$1,995.00). This authorizes your school **unlimited access** for the student body enrolled at your school location.
- ✪ You'll receive an **access key** to copy the curriculum folder to your Google Classroom system.
- ✪ We recommend your students first watch the video(s) for each chapter, so they know the lesson to come.
- ✪ Students are welcome to watch the learning videos as many times as they wish to master the content

### How to apply in your class:

- ✪ **10 lesson units** taught at one per week.
- ✪ Students can fly unlimited hours on their tablet or smartphone.
- ✪ **X-Plane** is an accurate and realistic flight simulator for tablets or smartphones.

### What's included?

- ✪ 10 Lesson folders which include curriculum units, learning videos, activities, and quizzes.
- ✪ Also included are these teacher documents:  
**Lesson Plans - NGSS Alignment - Answer Key**
